

REBUS REMIX - HOME EDITION by Dart

In Rebus Remix, players use tiles to spell the answers to clues.

The tiles themselves are either letters, icon tiles which represent words, or special tiles which alter the icon tiles. The icon tiles have drawings, and they represent words of *approximately* three letters. Rebus Remix does not deal in sounds; icon tiles represent the letters in the word they represent. Once you know what an icon's meaning is, that meaning never changes.

All the answers to the clues are single, uncapitalized words in 11C (unless otherwise indicated), though they may be clued in a capitalized form. They are also at least four letters long and at least two tiles long. For example, the tiles:

...answer the clue “Stooge Larry”. This answer is four letters long and two tiles long, and the name also appears uncapitalized in 11C as a word.

There are details of the tiles worth looking for. Although the **FIN** tile above shows water and sky, there is a red arrow pointing to the aspect of the picture that you should pay attention to.

If you do a lot of these puzzles, some tiles may become familiar to you, but be careful! Some icon tiles may look similar, but they can be different in important ways. Look closely.

This .pdf contains Game #6 of Rebus Remix, which appeared at the 2011 NPL convention in Providence. I hope you enjoy the puzzles.
