

# REBUS REMIX - HOME EDITION by Dart

In Rebus Remix, players use tiles to spell the answers to clues.

The tiles themselves are either letters, or icon tiles which represent words. The icon tiles have drawings, and they represent words of *approximately* three letters. Rebus Remix does not deal in sounds; icon tiles represent the letters in the word they represent. Once you know what an icon's meaning is, that meaning never changes.

All the answers to the clues are single, uncapitalized words in 11C, though they may be clued in a capitalized form. They are also at least four letters long and at least two tiles long. For example, the tiles at the right answer the clue "Actor Nicolas". This answer is four letters long and two tiles long, and the name also appears uncapitalized in 11C as a word. All words must use an icon tile.

There are details of the tiles worth looking for. Although the **AGE** tile above shows an entire birthday cake, there are red arrows pointing to the aspect of the picture that you should pay attention to.

Some tiles show two opposites side by side. One side has the normal white background and a green checkmark under it, and the other is shaded out and has a red X. This tile represents the unshaded half of the picture.

The exclamation point speech bubble indicates that a creature is saying something, and it is that word that should be used as the meaning for the tile.

A speech bubble with a flag image in it tells you that the meaning of the tile is as the image would be described in that part of the world. Note that speech bubbles may appear on tiles that are neither exclamation points nor flags; these simply represent speech.

If you do a lot of these puzzles, some tiles may become familiar to you, but be careful! Some icons tiles may look similar, but they can be different in important ways. Look closely.

In the first round of this game, players were given three different tile sets and asked to find one more new word among the tiles every 15 seconds. Forms of a word (plurals, past tenses, etc.) are acceptable only if a new icon tile is needed to spell the form. For example, given the tiles on the right, **SEAR** is an acceptable word, but then **SEARS** is not. **SEA RING** is acceptable because an icon tile has been introduced.

In the second round of the game, a modifier tile was introduced: the Past Tense tile. This tile turns the word that the icon tile to its left represents into its simple past (not its past participle). For example, the tiles on the right answer the clue "Item held by judges and auctioneers". The tile **GIVE** becomes **GAVE**, not **GIVEN**. Only two clues in each set will use the Past Tense tile.

This .pdf contains Game #10 of Rebus Remix, which appeared at the 2011 NPL convention in Providence. I hope you enjoy the puzzles.
