

REBUS REMIX CROSSWORD by Dart

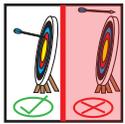

In Rebus Remix, you use tiles to spell the answers to clues.

The tiles themselves are either letters, icon tiles which represent words, and special tiles which affect the icon tiles. The icon tiles have drawings, and they represent words of *approximately* three letters. Rebus Remix does not deal in sounds; icon tiles represent the letters in the word they represent. Once you know what an icon's meaning is, that meaning never changes.

All the answers to the clues are single, uncapitalized words in 11C, though they may be clued in a capitalized form. They are also at least four letters long and at least two tiles long. For example, the tiles at the right answer the clue "The Man in Black". This answer is 4 letters long and 2 tiles long, and the name also appears uncapitalized in 11C as a word (with one exception). All answers must use an icon tile. In this crossword, if an answer is four tiles or longer, it uses at least two tiles that are not single letters (so, double letters, icon tiles or the special tiles described below in some combination).

There are details of the tiles worth looking for. Although the **ASH** tile above shows a cigar, there is a red arrow pointing to the aspect of the picture that you should pay attention to. (This implies, of course, that without an arrow, you should describe the whole picture.)

Some tiles show two opposites side by side. One side has the normal white background and a green checkmark under it, and the other is shaded out and has a red X. This tile represents the unshaded half of the picture.

The exclamation point speech bubble indicates that a creature is saying something, and it is that word that should be used as the meaning for the tile.

A speech bubble with a flag image in it tells you that the meaning of the tile is as the image would be described in that part of the world. Note that speech bubbles may appear on tiles that are neither exclamation points nor flags; these simply represent speech.

The Reverse tile reverses the order of the letters in the icon tile immediately before it in the answer. (This means the tile to its left in an Across answer and the tile above it in a Down answer.)

The **-R** tile deletes the letter R from the icon tile just before it in the answer.

The **^N** tile inserts the letter N into the middle of the icon tile just before it in the answer.

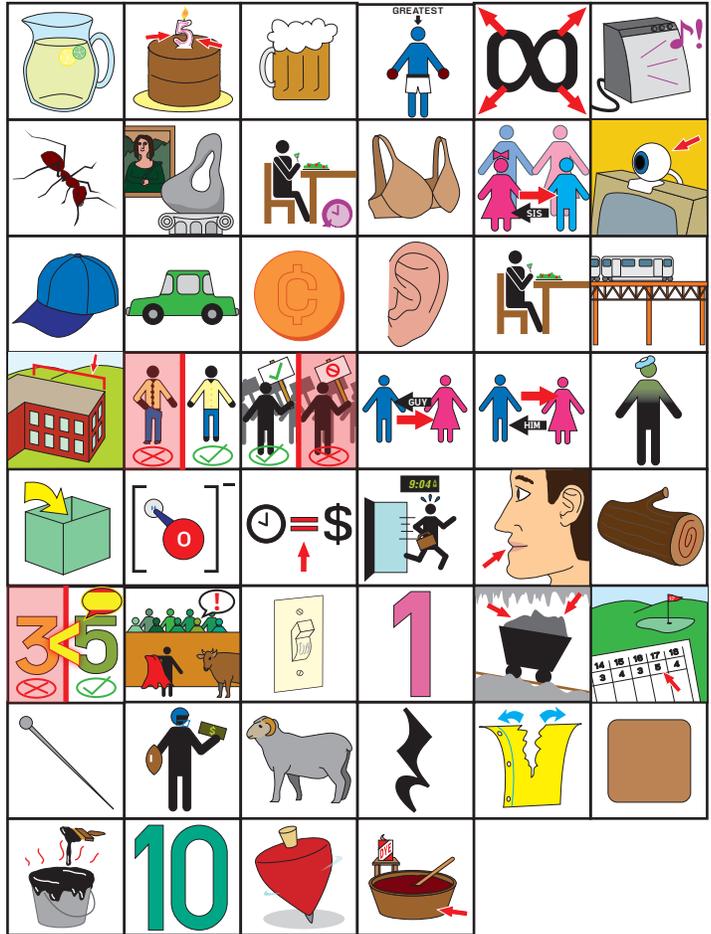

If you do a lot of these puzzles, some tiles may become familiar to you, but be careful! Some icons tiles may look similar, but they can be different in important ways. Look closely.

This .pdf contains the Rebus Remix crossword, which appeared at the 2012 NPL convention in Portland, OR. It is rather strongly recommended that you cut the tiles out and build the crossword with them! I hope you enjoy the puzzles.

TILES

A	A	D	D	D
E	E	F	G	G
K	L	L	M	O
O	O	O	P	P
R	R	R	S	S
S	S	S	T	T
T	W	Y	Y	

←R	-R	^N	ER	QU
----	----	----	----	----

CLUES

All answers are spelled with at least one icon tile; all answers that are at least four tiles long contain at least two tiles that are not single letters. The final grid is 11 × 11 and has no symmetry. All answers appear as single uncapitalized words in 11C, though they may be clued in capitalized form, EXCEPT for the answer to #35, an appropriate capitalized word in 11C. Clues are sorted by word length (with “tile length” provided), but otherwise randomly, except for that pesky #35.
